Subject: FW: Fruitvale AE.

Hello team,

I still have not received the electronic copy of the Fruitvale AE package. I talked with Janel and we are trying a new transmittal method, rather than US mail. See link below. It worked for me; if you would like to see any of the package you can click below. It's on the DOGGR website but we will be receiving many of these before public comment so we needed another way to get them for review earlier in the process. I think this will work for us. Cadmus can also download, so this seems to work.

Cadmus will provide the completeness checklist to Lisa and I in two weeks, COB August 2.

Michele,

Janel informed me that the Fruitvale Aquifer Exemption is still working its way through transit to your office. Here is a link to view and download all the exemption material. If you have any trouble accessing the files let me know. No account is necessary to access and download the files.
